Bupa Essential Care is an excellent value plan that covers essential health care needs. Using our Essential Provider Network in Latin America, the Caribbean, and the United States of America, you and your family will be covered for out-patient diagnostics, in-patient surgery, cancer treatment, and any out-patient physiotherapy that you may need after a hospital stay.

For even greater reassurance, there is an optional rider available for additional coverage of maternity complications and transplant procedures.
Bupa is a leading and experienced health insurer that provides a variety of products and services to residents of Latin America and the Caribbean. Bupa began as a provident association in the United Kingdom in 1947 with just 38,000 members. Today, Bupa looks after the health and wellbeing of more than 11 million individuals from 190 countries around the world, giving us a unique global advantage for the health and wellbeing of more than 11 million individuals from 190 countries around the world.

Bupa has no shareholders, which allows for the sustained financial growth and continues to consolidate its credentials. Since its inception more than 65 years ago, Bupa has maintained a commitment to its members. Bupa’s purpose is to help people live longer, healthier, happier lives. Bupa engages in sustainability strategies to ensure our people, products, and all individuals in our workplace. We are committed to enhancing the quality of life of our customers and personnel as well as those of communities in need.
